Beta Tool. For 1/16" Stainless Steel HPLC Tubing, Red Grips. MicroSolv Brand. 1 EA.

Additional Info

This is a very handy tool for every laboratory that works with 1/16" Stainless Steel Tubing. These Tubing Pliers / Tubing Straightener has soft grips and a Center Hole that is slightly larger than 1/16" that is designed to remove kinks or bends in tubing or for making seamless bends when you squeeze the Pliers. This will help to insure a good internal flow path in your HPLC tubing and avoid problems due to bent or kinked tubing.

The Beta Tool™ can also be used as precision pliers.
