

## Catalog Number

68022-P30-100

**Prep HPLC Column, RP PFP**, 10um, 100A. 30mm ID x 100mm Length.  
Cogent Brand. 1 EA.

### Additional Info

This Cogent RP PFP™ or RP Pentafluorophenyl Stationary Phase has been a premium value used by HPLC laboratories for many years and routinely called "F5". It is double end capped (*fully*) and bonded with a four carbon link to a benzene ring with 5 Fluorines on the highest purity 100A silica available.

With a 10µm Particle, this column works well with higher flow rates producing low back pressures in preparative HPLC making this column ideal for purification of halogenated or polar samples.

*A specialized HPLC System is required for this column which is packed and shipped in Reversed Phase Solvents.*

**Notes** - A specialized HPLC System is required for columns this size. This is a CUSTOM ORDER manufactured item which cannot be returned or canceled once an order has been
