

HPLC Columns You May Not Know About That Can Be Very Helpful - White Paper

Date: 21-MAY-2021 Last Updated: 30-NOVEMBER-2025

This document is a two page "White Paper" that provides a interesting dialogue between Professor Joseph Pesek and LCGC magazine. The short discussion is about HPLC columns that you may not know about but have been very useful to many labs around the world for many years.

A Q&A

Helpful HPLC Columns You May Not Know About

Dr. Joe Pesek
Professor Emeritus
San Jose University

Cogent TYPE-C™ (high-performance liquid chromatography) HPLC columns are considered by experts to be a great tool for chromatographers, yet remain unknown by many scientists. *LCGC* recently spoke with Dr. Joe Pesek, Professor Emeritus at San Jose University, about how Cogent Type-C Silica™ columns are suited for polar, non-polar, and water labile compounds and how using these columns can save time and money while providing great data not easily achieved with other columns.
