

Is PTFE tubing suitable for VHP sterilization (CIP, SIP)- FAQ

Date: 21-DECEMBER-2023 Last Updated: 8-NOVEMBER-2025

Yes, our ARE-Applied Research™ brand of PTFE tubing works well with this type of sterilization given the temperature limit of 450° F.

- NOTE: Important facts about PTFE tubing sterilization procedures:
- VHP is vaporized hydrogen peroxide and is a commonly used method for achieving a high level of sterility assurance.
- CIP-SIP systems involve the use of pure steam to ensure that large scale processes are free from impurities and organic contaminants.
