

## What is an EPP or Easy Purchase Pack - FAQ

*Date: 30-MARCH-2012 Last Updated: 20-JUNE-2025*

An Easy Purchase Pack (EPP) is a convenient, bundled solution that combines autosampler vials and matching caps under a single catalog number (SKU). Designed for efficiency and simplicity, EPPs make ordering and inventory management easier for laboratories of all sizes.

### **Key Benefits of an EPP:**

- **Streamlined Ordering:** Vials and caps are packaged together as one item, reducing the need to manage multiple SKUs.
- **Efficient Inventory Control:** Each component is individually packaged but boxed together, making it easy to store, track, and distribute.
- **Analyst-Friendly:** Issue one EPP per analyst or workstation for simplified usage and accountability.

Whether you're managing a busy lab or looking to reduce ordering complexity, EPPs offer a smart, organized way to keep your autosampler supplies ready and accessible.
