

What is an EPP or Easy Purchase Pack - FAQ

Date: 30-MARCH-2012 Last Updated: 20-JUNE-2025

An Easy Purchase Pack (EPP) is a convenient, bundled solution that combines autosampler vials and matching caps under a single catalog number (SKU). Designed for efficiency and simplicity, EPPs make ordering and inventory management easier for laboratories of all sizes.

Key Benefits of an EPP:

- Streamlined Ordering: Vials and caps are packaged together as one item, reducing the need to manage multiple SKUs.
- Efficient Inventory Control: Each component is individually packaged but boxed together, making it easy to store, track, and distribute.
- Analyst-Friendly: Issue one EPP per analyst or workstation for simplified usage and accountability.

Whether you're managing a busy lab or looking to reduce ordering complexity, EPPs offer a smart, organized way to keep your autosampler supplies ready and accessible.
