

Catalog Number

47301-04

Tubing Connector Fittings, high pressure, one piece, 1/16 inch, Carbon PEEK Endure, Black, small hex head with 10-32 screw threads. Finger tighten, ARE-Applied Research brand. 10/PK.

Pack of 10

Additional Info

These tubing connector fittings are used to connect PEEK or Stainless Steel tubing in the high pressures zones of HPLC systems.

Fitting has a 6 mm diameter knurled head, 20.5 mm total length (top to bottom) with a 13 mm thread length. The head of this fitting makes it excellent for use with sample loops or other tight places. Use the [Valve tool](#) for the extra push you may need to make it tight.

Carbon PEEK has been reinforced with carbon fiber, giving it the highest strength and stiffness of all the PEEK grades and improving its load-carrying capacity.
