

## Catalog Number

49590-10

**Tubing Connector Kit**, high pressure, two pieces, 1/16 inch, Stainless Steel hex head with 10-32 screw threads and matching single cone ferrules. Wrench tighten, ARE-Applied Research brand. 10/PK.

### Additional Info

This is one of our **Most Popular**, nuts used to connect stainless steel tubing in the high pressures zones of HPLC systems.

This economical 316L, stainless steel fitting has a standard diameter hexagonal head for wrenching the nut.

The supplied 316L stainless steel matching ferrule is designed to work with this fitting providing a permanent attachment to SS tubing for a high-pressure connection.

Click [HERE](#) for replacement ferrules.
