

## Catalog Number

68022-05P-4

**HPLC Column, RP PFP, 10um, 4.0mm ID x 50mm Length, 100A.**  
Cogent Brand. 1 EA. CUSTOM ORDER.

### Additional Info

This Cogent RP PFP™ or RP Pentafluorophenyl Stationary Phase has been a premium value used by HPLC laboratories for many years and routinely called "F5". It is double end capped (*fully*) and bonded with a four carbon link to a benzene ring with 5 Fluorines; the highest purity silica available is used making this column ideal as an Alternate in USP Methods that require the L43 Classification.

With a 10µm Particle, this column works well with higher flow rates and lower back pressures. Often chosen for samples with halogenated or polar functional groups.

*Packed and shipped in Reversed Phase Solvents.*

This is a CUSTOM ORDER manufactured item which cannot be returned or canceled once an order has been placed. Click [HERE](#) for more information on what is a Custom Order.
