HPLC Column, RP Phenyl, 10um, 4.0mm ID x 250mm Length, 100A.
Cogent Brand. 1 EA. CUSTOM ORDER.

Additional Info

This Cogent RP Phenyl™ HPLC Column has been a premium value and used by HPLC laboratories for many years. It is double end capped (*fully*), with traditional bonding of a 3 carbon linkage to a terminal Phenyl Ring known as Propyl Phenyl, to the highest purity silica available, making this column ideal as an Alternate in USP Methods that use the L11 Classification.

Used to separate Isomers (*positional*), Tocopherols, Flavonoids, Polynuclear Aromatics, Nitro-Aromatic Compounds, Active Pharmaceutical Ingredients (APIs), Natural Products and Related Compounds in Reversed Phase HPLC, these Phenyl Columns are an excellent choice.

With a 10 µm Particle, it works well with high flow rates and produces lower back pressures.

This is a CUSTOM ORDER manufactured item which cannot be returned or canceled once an
