

Catalog Number

75020-P50

Prep HPLC Column, HPS Phenyl, 5um, 21.2mm ID x 50mm Length,
120A. Cogent Brand. 1 EA.

Additional Info

This Cogent HPS Phenyl™ Stationary Phase has been a premium value and used by HPLC laboratories for many years. It is fully end capped and is manufactured with a mono functional, 4 carbon ligand that has an attached *Phenyl* group and it is bonded to the highest purity, 120A silica available.

With a 5µm Particle, this Column works well with higher flow rates producing lower back pressures compared to columns with smaller particles making ideal for the purification of Isomers (*positional*), Tocopherols, Flavonoids, Polynuclear Aromatics, Nitro-Aromatic Compounds, Active Pharmaceutical Ingredients (APIs), Natural

Price

\$5,066.33

Additional Info

Products and Related Compounds in Reversed Phase HPLC.

Compare this column's performance to Luna™ or Inertsil™ columns.

Notes - A specialized HPLC System is required for columns this size. This is a CUSTOM ORDER manufactured item which cannot be returned or canceled once an order has been placed. Click [HERE](#) for more information on what is a Custom Order.
